NEW AND MOST EFFECTIVE REMEDY.
DR. WOOD'S
SARSAPARILLA AND WILD CHERRY
BITTERS,
For the Cure of the following Diseases.

Jaundice, Liver Complaint, all Billious Complaints Sick Headache, Heart Burn, Indigestion, Habitual Costiveness, Piles, Palpitations of the Heart Loss of Appetite, Dyspepsia Nervous Irritations, Debilitated Stomach, Languor, Depression of Spirits Chronic Rheumatism, Cutaneous Diseases, Canker, Syphilod Diseases, Scrofula Impurities of the Blood, Pimples and Pustules on the Face, Hereditary Humors, Cold Sores, and all diseases arising from an injudicious use of Mercury

The attention of the invalid public and all those afflicted by any of the above diseases, is respectfully called to the merits of a new and invaluable preparation from an original recipe of a distinguished physician, combining in itself the most active remedial properties of two of the very first articles in the Materia Medica

The Sarsaparilla and Wild Cherry Bitters, were introduced to the public about twelve months ago, and during that period their success has been so great as to induce the proprietor to offer them with still more confidence in the full belief that by entering into more extensive use, they will prove a blessing to all those suffering from the diseases above enumerated

DYSPEPSIA OR INDIGESTION.

This anomalous, distressing and almost undescribable complaint—the torture of civilized society has its foundation in a deranged condition of the stomach and bowels Those afflicted by it are cut off from half the enjoyments of life—the pleasures of the table, and sweet and regular sleep—oftentimes a confirmed Dyspepsia fatally neglected, is but the forerunner of more dangerous diseases if not of death itself At its first appearance it should be checked by an attention to diet and regularity and by the use of some safe and Salutary medicine All that invalids can desire of this kind is presented in Dr WOOD'S Sarsaparilla and Wild Cherry Bitters, a skillfully prepared and delightful Tonic and Aperient every day becoming more & more popular The following is one among many certificates of the efficacy of this medicine in the cure of Dyspepsia and Indigestion Headache &c

Col Gibbs is well known in this vicinity and cheerfully gives his testimony of the efficiency of this Medicine

Sandwich Sept 4 1844

Dear Sir—This is to certify that my daughter has been troubled with Dyspepsia for a number of years, attended with almost constant headache and other distressing symptoms which accompany this disease She visited Boston to avail herself of the advice of the justly celebrated physicians of that city, all to no purpose By the solicitation of a friend I was induced to purchase a bottle of Dr Wood's Sarsaparilla and Wild Cherry Bitters Before taking one bottle she was relieved entirely of the headache and after using two or three bottles the other symptoms entirely disappeared
N B GIBBS

THE UNIVERSAL COMPLAINT, HEADACE.

Who is there that does not occasionally suffer from this distressing affection? We meet with it among all classes condition and sexes the torture of the sufferer unfitting its victims for all bodily and all mental exertion rendering them nervous and irritable and incapacitating them alike for business or enjoyment The principal if not the sole cause of this malady is to be found in a diseased condition of the stomach and bowels corrupting the blood in bracing the nerves generally depressing the system and preventing that great blessing of life a regular certain and easy digestion Only ensure this and the disorder will vanish In order to effect this desirable object no medicine ever offered to the public has been seen with greater success than Dr Wood's Sarsaparilla and Wild Cherry Bitters combining all the advantages of the tonic and aperient medicines of the day and free from many of their usual disadvantages

The undersigned certificate of Col Boyles will be read with interest by those afflicted with headache, and other complaints arising from a deranged stomach

New Bedford Aug 10 1844

Dear Sir I find Dr Wood's Sarsaparilla and Wild Cherry Bitters all that you recommended them to be and take great pleasure in saying that I think them the best preparation of the kind ever offered to the public I have been troubled for a long time with Jaundice and a derangement of the Stomach attended with Head Ache and Vertigo which was so bad at times that I could not see a do think that I am entirely cured by the use of those Bitters I have used them in my family and would recommend them to every one suffering from Jaundice, Indigestion and Headache
JOHN BAYLISS

DEPRESSION OF SPIRITS

At certain seasons of the year and particularly in the spring many persons are subject to a depression of the spirits accompanied by a debilitated stomach loss of appetite nervous irritation general languor, and a variety of symptoms, which it is impossible to describe The only way to remove this disease, is to strengthen the stomach, by the use of proper tonic remedies to brace up the muscles secure an appetite for food and allay nervous irritation and by putting the body in a high state of health, to produce ease and strength of mind To do this, nothing is more effectual than the Sarsaparilla and Wild Cherry Bitters They are confidently recommended as the best SPRING MEDICINE ever offered to the public One trial of their virtues will be sufficient to convince all of their valuable properties, and those who have used them will never resort to any other remedy for this painful disease destructive as it is to all happiness and usefulness in life

CAUTION TO THE PUBLIC

Be particular and ask for Dr Wood's Sarsaparilla and Wild Cherry Bitters, and receive no others This is the first preparation of Sarsaparilla and Wild Cherry combined ever offered to the public and the great success attending its use will induce the unprincipled to counterfeit An ounce of prevention is worth a pound, see that the bottles have the words Dr Wood's Sarsaparilla and Wild Cherry Bitters pressed on the glass, as a further protection each label on the bottle will be signed by the proprietor E Thornton Jr Take these precautions and you will get the genuine article

From the New Bedford Register

Dr Wood's Sarsaparilla and Wild Cherry Bitters.—The respectability of gentlemen in this town and vicinity, who testify to the benefits, within their personal knowledge, derived from the use of this compound of Sarsaparilla and Wild Cherry is such as to put to rest all doubts as to the value of these extracts to those suffering from Dyspepsia Jaundice, Indigestion Headache or Scrofulous diseases When a medicine has been known to effect cures in certain cases no recommendation is needed, other than a simple statement of facts To those then who are liable to any complaints for which the Sarsaparilla and Wild Cherry Bitters is advertised as a remedy we would say, do as others have done and find relief in the way pointed out by the proprietor of this highly popular compound.

EXCELLENT WATER POWER FOR MILLS AND MANUFACTURING PURPOSES.

THE excellent water power at the outlet of the Great East Pond in the town of Newport County of Penobscot and State of Maine is now offered for sale in such parts as purchasers may desire This water power combines the essential advantages as unfailing supply of water the pond covering a large portion of the town and raised with little expense or damage, freedom from all risk as to freshets, and is never frozen It is situated in the heart of rapidly increasing and thriving agricultural county and is only twenty three miles distant from the city of Bangor

There is now situated on this outlet a Tannery an Iron Foundery and Machine Shop and a Saw Mill and a Grist Mill

The owners wish to dispose of a privilege sufficient for driving a large amount of machinery and also of several acres of land adjoining, or of portions of the same to be used for various manufacturing purposes

It is believed that the advantages here offered are rarely equalled and never excelled, and that the terms of sale will be such as to be worthy the attention of capitalists and others who may wish to engage in manufactures

NOTICE TO PROPRIETORS OF CERTAIN LANDS IN THE STATE OF MAINE.

THE Legislature of the Commonwealth of Massachusetts by a Resolve passed 1st April, 1836 directed the Land Agent of said Commonwealth to give notice to sundry proprietors of lands in the State of Maine who were required by a condition contained in the original deeds of conveyance from the Commonwealth to place a certain number of families on their respective tracts and requiring them to furnish evidence of the fulfillment of said condition or pay the sum of $36 for each family deficient on the first day of June 1836 or the lands would be declared forfeited

Pursuant to said Resolve notice was soon after given to all the proprietors of lands subject to said condition most of whom have complied therewith and removed the incumbrance The proprietors however of the following townships or tracts have not responded to the notice neither have they so far as is known to this office settled for or complied with said condition viz In the County of Cumberland—a gore of land lying between the towns of Raymond and Otisfield, formerly conveyed to Samuel Phillips

County of Franklin—Township Letter D conveyed to Joseph an Gardiner and number two and number three in the third range

County of Oxford—Letter A No 1 now the town of Riley and A No 3 now the town of New Pond

County of Somerset—Township No 2 1st Range north of Bingham's Kennebec purchase granted to the Trustees of Saldwin Academy

County of Penobscot—Township No 3 in the west side of Penobscot River granted to the Maine Literary and Theological Institution now the town of Argyle South half of township No 3 8th range North of the White patent granted to C Drowne and others and the north half of township No 6 9th range granted to the Trustees of Warren Academy

County of Washington—Townships No 3 1 range west of Passamaquoddy River granted to Samuel Hackley No 1 4th range ditto granted to William College now called Lincoln and a half township on the Eastern boundary line granted to the Trustees of Limerick Academy now called New Limerick

The undersigned is required by a late resolve of the Legislature of Massachusetts passed the 14th day of March last again to give notice to delinquent proprietors and to take such measures as he may deem to be necessary, to recover of the Commonwealth the possession of any of the above named township or tracts of land from such proprietors as shall have failed on the first day of December next of com lying with the requisition of the Resolve of the first day of April 1836

And Agency of the U S Patent Office Washington
No. 27 State-Street, Boston.

THE subscriber by appointment from the Commissioner of Patents Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models specimens of ingredients and manufactures as shall be intended to be patented or deposited therein which will be received and forwarded free of expense and risk to their owners and with all possible dispatch The subscriber will prepare Specifications Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works for establishing the validity or utility of inventions and render advice on all legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents The experience of fourteen years of practice—an extensive collection of rare works, documents decisions &c on mechanical subjects and the Patent Laws—and a list of different countries, collected at considerable expense during the long time this office has been established and to which daily additions are by made together with accounts here kept of patents granted at Washington enable me to afford important assistance and information to inventors desirous of securing Patents which in other respects might be difficult of attainment

LORAINE'S PILLS:

OR
VALUABLE UNIVERSAL MEDICINE,
CURATIVE,
OF THE
French College of Health in Paris.

THESE Pills are now acknowledged by thousands, who take them daily, to be the only medicine that fairly takes the Banner from all others This *Extraordinary Medicine* has actually done WONDERS within one year past all over the inhabited world where it has been introduced They cause no pain, or uneasiness, of any kind in their operation, and require neither change of diet or care of any kind

The attention of the readers is respectfully called to the following important results from the use of these Pills It will be seen, however great achievements have heretofore been made by the use of this invaluable medicine —still greater, and more remarkable cures daily happen

SWELLING OF THE BODY FROM HEAD TO FOOT, CURED

BOSTON (Mass) March 10 1844

SIR —About a year since I was taken severely ill, with a swelling of the body from head to foot so that I was entirely helpless The doctor advised me to go to the Hospital, for he said he did not understand my case The persuasion of friends induced me to try Dr Loraine's Vegetable Pills which in a few days produced a great change in my system by increasing the natural discharges causing an appetite, relieving the pain, removing the swelling, and giving me strength and a perfect cure
MARY JANE FRANCES

A SEVERE PAIN IN BOTH SIDES, CURED

LOWELL (Mass) April 20, 1844

Sir—For the last few months I have been afflicted with a severe pain in both sides at times so hard that I could scarcely get my breath * * * It is a pleasure to find well—but a much greater one to say that I was cured immediately upon taking a dose of Dr Loraine's Pills
J BROOKS

A HACKING COUGH CONSTANTLY AROUND ME!

BOSTON (Mass) June 1, 1844

Sir —In February last I took a sudden cold after which a hacking cough continually annoyed me and this combined with my other maladies rendered me truly miserable as every body told me that I was in a consumption Since I have taken Loraine's Pills and now every body tells me that I am well—I feel as well as ever I did

THE GREAT NORTHERN REMEDY.

N. H. DOWNS'

VEGETABLE BALSAMIC ELIXIR,

FOR Colds, Coughs, Consumption Spitting of Blood, Whooping Cough, Asthma, Croup Bronchitis and all diseases of the Lungs

This medicine is purely vegetable—the result not of mere theory and speculation, but of much study and research during years of debility and suffering, and the inventor having succeeded in curing himself, and having tested its efficacy on thousands of individuals in New England and the western States feels great confidence in recommending it to the public as a safe and efficient remedy It operates most conspicuously in removing all morbid irritation from the Lungs and Pulmonary Organs, keeps the cough loose, promotes expectoration and induces a degree of quiet in the system peculiarly grateful to the patient after having experienced so many days and nights of restless inquietude and suffering Hear the testimony of those who have been benefitted by it Hon Bates Turner late Judge of the Supreme Court of Vermont, says, I have been acquainted with the medicine called Downs' Elixir for seven years past and from its effects upon myself and in cases where I have witnessed its effect upon others I consider it one of the most fortunate inventions ever made Robert W Woodruff, Esq of Summerville, N J, after certifying to its good effects upon himself in a case of long standing internal weakness, and coughs, concludes thus — This certificate is given with the hope that it may direct the attention of all suffering from colds coughs, inward weakness, &c to this invaluable medicine"

Dr Gustavus Hills, of Ashtabula, Ohio, says, "I was induced to try the Balsamic Elixir and having used one bottle with decided advantage I followed it with another which I hesitate not to say have had a more pleasing and permanent effect than all other cough medicines I ever used" William C Perkins of Summersworth Great Falls N H says I have used N H Downs' Vegetable Balsamic Elixir for phtisic and found immediate relief and do consider it the best medicine ever used by me for that complaint" B Baily Esq of Canton, N Y concludes his certificate thus "I have no hesitation in saying to the public that the said Balsamic Elixir was the only means of my recovery and I do most cheerfully and earnestly recommend it to the public" Caspin Nelson of Waterford Me in a letter to the general agents dated March 10 1845, says "The gent of Downs Elixir was here last month and left one and a half dozen bottles with me, not knowing its value did not take much have sold all he left and finding at one of the most valuable medicines I ever had in my store to sell want you to send on another lot immediately by stage"

Pamphlets gratis, may be had of Agents giving a full description of the medicine, etc

FEVER AND AGUE, BILLIOUS AND LIVER COMPLAINTS, DYSPEPSIA

RHEUMATISM, PILES, CONSUMPTION, WORMS, SCROFULA.

INSENSIBLE PERSPIRATION.

THE above figure is given to represent the INSENSIBLE PERSPIRATION It is the great EVACUATION for the impurities of the body It will be noticed that a thick cloudy mist issues from all points of the surface which indicates the wonderful process going forward within This perspiration flows on uninterruptedly when we are in health but ceases when we are sick It should be the care of every one to see that it is not checked Life cannot be sustained without it It is thrown off from the blood and other juices of the body, and dispenses by this means of nearly all the impurities within us The blood by this means only works as it pure The language of Scripture, is the BLOOD is life If it ever becomes impure, it may be traced *directly* to the stoppage of the INSENSIBLE PERSPIRATION It *never* requires any internal medicines to cleanse it as it ALWAYS purifies itself by its own heat and action and throws off all the offending humor, through the INSENSIBLE PERSPIRATION Thus we see, all that is necessary when the blood is stagnant or infected is to open the pores and it relieves *itself* from all impurity *instantly* Its own heat and vitality are sufficient without one *particle* of medicine except to open the pores and put the surface Thus we see the folly of taking so much internal medicine All practitioners, however direct their efforts to restore the lost insensible Perspiration but it seems to be not always the proper one — The Thomsonian for instance *steams*, the Hydropathics, shrouds us in wet blankets the Homopathist deals out infinitesimals the Allopathist blends and doses us with mercury and the battering Quack gorges us with pills pills pills

But one object only is in view, viz—to RESTORE the INSENSIBLE PERSPIRATION It this can be done they say, we will take care of the rest It will be seen, therefore that all physicians understand *alike* what is necessary for a recovery, however much they may differ as to the mode of obtaining it

I give some idea of the amount and consequently the importance of the INSENSIBLE PERSPIRATION we will state that the learned Dr Lewenhock and the great Boerhaave ascertained that five-eighths of all we receive into the stomach passed off by this means In other words, if we eat and drink eight pounds per day we evacuate five pounds of it by the Insensible Perspiration

This is none other than the used up particles of the blood and other juices, giving place to the new and fresh ones by carrying with it all the impurities within, up to the surface To check this, therefore is to retain in the system five-eighths of all the virulent matter that nature demands should leave the body And even when this is the case, the blood is so active a principle, that it determines these particles to the skin, where they form scabs, pimples ulcers and other spots, but if it is directed inwards, and falls upon the lungs, the consequences are generally fatal

By a sudden transition from heat to cold, the pores are stopped the perspiration ceases, and disease begins at once to develope itself Hence a stoppage of this flow of the juices, originates so many complaints It is through the surface that we imbibe nearly all our ills.

It is by stopping the pores, that overwhelms mankind with coughs, colds and consumptions Nine tenths of the world die from diseases induced by a stoppage of the INSENSIBLE PERSPIRATION

It is easily seen, therefore, how NECESSARY is the flow of this subtle humor to the surface, to preserve health It cannot be stopped, it cannot be even checked, without inducing disease The blood and intestines must relieve themselves of all their worn out particles, and poisonous humors and they must go through the pores as nature designed.

Let me ask now, every candid mind, what course seems the most reasonable to pursue, to unstop the pores, after they are closed, and let the perspiration flow, that the blood may relieve itself of its impurities? Would you give physic to UNSTOP the pores? Or would you apply something that would do this upon the surface where the clogging actually is? Would not this be common sense. And yet I know of no physician who makes any external application to effect it The reason I assign is, that no medicine within their knowledge, is capable of doing it. Under these circumstances I present to physicians, and to all others, a preparation that has this power in its full extent It is *McAlister's All-Healing Ointment* or the *World's Salve* It has POWER to restore perspiration on the feet, on the head, around old sores, upon the chest, in short upon any part of the body, whether diseased slightly or severely When the perspiration is restored, it has POWER to penetrate to the lungs, liver or any other part of the human system, and so to act upon them if they be diseased, by separating the inflamed morbid particles therefrom, and expelling them to the surface

It has POWER to cause all *external* sores, scrofulous humors skin diseases, poisonous wounds, to discharge their putrid matter, and then heal them

It is a REMEDY that sweeps off the whole catalogue of cutaneous disorders, and restores the entire cuticle to its healthy functions

It is a REMEDY that forbids the necessity of so many and deleterious drugs taken into the stomach

It is a REMEDY that neither sickens, gives inconvenience or is dangerous to the tender lines

This REMEDY is probably the only one known, that is capable of producing all these great results Its great value is to restore *at once*, the circulation of the juices when checked or disarranged by cold or other causes It preserves and defends the surface from all derangement of functions, while it keeps open the channel for the blood to void all its impurities and dispose of all its useless particles — There is a connection, harmony, and feasibility in it all that defies contradiction It is a simple but wonderful principle that preserves in healthy operation the entire machinery of our being — It indivisibly holds together the *surface* and *internal Viscera* the *internal Viscera* and the *surface* They are inseperably connected and cannot be disjointed The surface is THE outlet of five-eighths of the bile and used up matter within it is pierced with MILLIONS of openings to RELIEVE the intestines Stop up these pores and DEATH knocks at your door It is rightly termed All-Healing, for there is scarcely a disease, external or internal that it will not benefit It will be found the most useful as well as the cheapest family medicine in the world I have used it for the last fourteen years with success without a parallel I have used it for all diseases of the chest consumption, liver, and the most dangerous of internal inflamies I have used it in cases of extreme peril and hazard, risqueing the utmost danger and responsibility and I dare before heaven and man that not in one single case has it failed to benefit when the patient was within the reach of mortal means

I never, in my recollection, had more than five cures among the thousands who have used it to say that it was not favorable to their complaint On the contrary I have had hundreds voluntarily and in the warmest and most pathetic language speak in its praise I have had physicians learned in the profession, I have had ministers of the gospel, Judges on the Bench, Aldermen and Lawyers, gentlemen of the highest erudition and MULTITUDES of the POOR use it in every variety of way, and there has been but one voice one united universal voice saying "McAlister, your Ointment is GOOD

CONSUMPTION

Of all diseases we find this the most important and concerning which we meet with the most opposition It can hardly be credited that a salve can have any effect upon the lungs, seated as they are within the system But we say once for all that this Ointment will reach the lungs *quicker* than any medicine that can be given internally Every body converts in the fact that if a healing medicine could be applied ON the lungs there would be great hopes of recovery The difficulty is to get the medicine *there* Now the Salve has the wonderful virtue of extracting the putrid diseased humors from all *external sores*, by causing them to discharge in like manner it operates upon *internal* affections by drawing all the impurities through the pores to the surface Thus with Consumption if placed upon the chest, it penetrates directly to the lungs separates the poisonous particles that are consuming them and expels them from the system

It is the simplest and most rational process of treatment of some has *the medicine* capable of doing it The All Healing Ointment possesses this power to its fullest extent I speak not only that it is curing persons in consumption continually although we are told it is foolishness I care not what is said, so long as I can cure several thousand persons yearly If this medicine was in the hands of some patent medicine brawlers they would make one roar through the country but would be insupportable

SCROFULA OR KING'S EVIL.

This disease is really inveterate and hard to be subdued It is generally seated in the side of the neck behind the ears, and under the chin yet scarcely any part of the body is exempt It sometimes falls on the lungs, and produces consumption It is a dreadful circumstance, that this disease is transmitted from parents to children

The Salve will extract all the morbid matter by causing the sores to discharge and then let the *Solar Tin ture* be used to drive it to the point which before a continuance of the Ointment will completely remove the disorder — This is probably the safest and most effectual of any method It should be adopted without a moment's hesitation

ERYSIPELAS

This complaint arises from impurities being driven out to the surface by means of the INSENSIBLE PERSPIRATION and lodging in the cuticle It runs sores pimples, &c, it being of a caustic acrid putrifying nature It only requires that it should discharge its virulent particles through the skin, and the disease will pass off If suffered to remain, and driven inwards it is frequently fatal

Let the Salve and *Solar Tincture* be used as in Scrofula, and the patient will soon get well

SALT RHEUM

This is another obstinate disease but can be cured effectually as the Scrofula There is no difference in this disease

HEAD ACHE EAR ACHE AND DEAFNESS

The Salve has cured persons of the Head Ache of 12 years standing and who had it regularly every week so that vomiting often took place I cured the wife of a man who laughed in my face for proposing such a cure, and who now is old not be without it for the best farm in the state If any man will take the trouble to call I will give his name

Deafness and Ear Ache are helped with the like success, as also Ague in the face

COLD FEET

Consumption, Liver Complaint, pains in the chest or side, falling of the hair, one or the other always accompanies cold feet It is a sure sign of disease in the system to have cold feet Some persons are totally unable to get them warm and endure much suffering thereby The Salve will restore the INSENSIBLE PERSPIRATION and thus cure every case It is invaluable for this

ASTHMA, TIGHTNESS OF BREATH

If this disease be not hereditary and produced by a malformation of the chest, the Salve will cure it.

DYSPEPSIA

One would suppose a Salve would not effect this disease much, but the All-Healing Ointment will cure two, sooner than internal remedy will cure one

SORE EYES

The inflamation and disease always lie back of the ball of the eye in the socket Hence the inability of all remedies that are used upon the lids The virtue of any medicine must reach the seat of the inflammation or it will do little good. This Salve if rubbed on the temples will penetrate directly into the socket and infuse all its virtues upon the disorder The pores will be opened, a proper perspiration will be created and the disease will soon pass off to the surface How easy and how natural! It is as perfect and valuable as it is simple and philosophical.

SORE LIPS, CHAPPED HANDS, ETC.

I sell a great deal of Salve to Seamen, who say it is the ONLY thing they can depend on to cure their raw ends, when exposed to the weather at sea. It acts like a charm in these complaints. Two or three applications cure.

PIMPLES ON THE FACE, FRECKLES, TAN, MASCULINE SKIN, GROSS SURFACES.

Its first action is to expel all humor. It will not cease drawing till the face is free from any matter that may be lodged under the skin and frequently breaking out to the surface. It then heals. When there is nothing but greasiness, or dull repulsive surface, it begins to soften until the skin becomes as smooth and delicate as a child's It imparts a freshness and blush to the on the new white, transparent skin that is enchanting Sometimes in case of Freckles it first start out those that have lain hidden and seldom Persue the Salve and all warts or excrescences Insensible Perspiration; while it removes the surface, which leaves the skin new and healthy cute a condition on the most fair is put up in fine jars and beautifully scented for the toilet.

BURNS

Life can always be saved if the vitals are not touched I have so many testimonials for the cure of burns that I could fill a book I have not a family in the U States that would be without this Salve a single day It is unrivalled in healing burns alone It extracts the fire from the place without a scar

QUINSY SORE THROAT INFLUENZA CHILLS

There is not an internal remedy in existence will cure these disorders as quick as the Salve upons the pores on the neck and throat reduces inflammation and impure juices and the patient will be well It is severe on these disorders

PILES

The Salve acts upon the Piles as upon Sores There is an inflammation, which must be done away the parts The Salve does this

HERNIA OR RUPTURE

This Salve has cured some very bad cases of Rupture and although it might not all, yet it would be a great relief It has a peculiar complaint but it will cure some, if not cured entirely I have not the least doubt that it would cure thousands of persons who believe no medicine of the least value is worth would satisfy any one who would do good or not

WORMS

If parents knew how fatal the worms are to children taken towards, they would take pains to them Especially never let children use lozenges, vermifuges or anything were it possible to any positive injury present it is not safe The truth is generally when worms are present the only remedy is not applicable in the common way to parents, that this Salve will kill a child has worms Let it be rubbed on the chest, to keep them from coming up and the bowels, and they will soon leave every vestige of them away This SAFE cure Injuries can come of it could not take place if the gripes of the stomach will effectually the worms

Has injured the health of one on the earth at least one out of every family the worms It will do no harm, for I am ready to back it will do what I say

GLANDULAR MORTIFICATIONS

There is no effectual way to take drawing off the putrid matter but this would only irritate the health and sores form an outlet to the impurities the only remedy because they are the outlet channels of the system such Sores are healed up, the impurities rendered quiet and will not get in the system why it is a golden cure the healing ointment the Salve will effectually consequences to the system Trial was just made for such some great cures no fear It is perfect

BROKEN BREAST

Persons need never have a Broken Breast Salve will ALWAYS prevent it if used in time

LIVER COMPLAINT

Persons with this disease frequently have a pain of the hands, face and other parts and think that it comes from the liver Brandreth pills to move these sluggish organs of the liver and order Both cost but a little and these wear it on the chest and the disease will go away

ILIAC PASSION OR GRIPING OF THE BOWELS

This disease cause the death of the late Reed Hughes Surgeon Attorney Street City of New York the United States in the space of three months the smaller intestines and the lower part of them It is brought on by costiveness evacuations from the intestines and food are useless, and unless help comes speedily it must die

The All Healing Ointment will cure this case

All pains going inflammations and the bowels will be relieved if not cured

CORNS

If the Salve is used according to directions never to be troubled with the corns by some trouble Moulder's Wax nor anything this Ointment put on now and then will keep them down

Indeed there are few complaints but what this Ointment will cure

FAMILY Salve for all the sky rolls over one shaved and the cuticle will soon grow As here is no circumstance of vegetables it is pleasant to use

D BUGBEE
No 2 Kenduskeag B
Bangor, March 25 1845 1wd&w4m

Dr. S. O. Richardson's CELLBRATED SHERRY WINE BITTERS.

THE Proprietor of this Medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system

It cannot be denied by those who have been acquainted with the singular virtues of these Bitters they possess a prominence over all others now in use for the diseases which they profess to cure

It is well known fact that the most of diseases are a derangement of the Stomach and Bowels, in the adult and declining life

The stomach crowned with roses
A tomb of roast and boiled and flesh and
Where bile and wind and phlegm and
And all the man is one intire line war

The extensive sympathies which exist between these and every other part of the living body form the foundation of nervous diseases of all kinds Indigestion Appetite, Languor, Drowsiness Wandering Pains Headache Lowness of Spirits, &c

And these in their turn give birth to Dropsy Palpitation of the Heart Shortness of Breath Jaundice Fevers Inflamatory Humors Coughs and a train of diseases which embitter life and poison all the sources of enjoyment

The distinguished character of these Bitters speaks for itself, their operation being more or less according to the violence of the disease When taken in appropriate quantity in cases of slight derangement of the Stomach and Bowels caused by costiveness or a slight bilious difficulty and the like where no medical assistance to prevent more serious consequences they will be scarcely felt

On the contrary, in obstinate cases, they frequently operate more powerfully causing two or three evacuations daily, until the circulating fluid becomes purified This accomplished, they act on the system in unison with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor

☞ For sale wholesale and retail, at the Doctor's Office, No 15 Hanover Street, Boston and also for sale by G W. Ladd, A. P Guild, Potter & Brown Hall & Young and N. B. Folsom, and all the Agents throughout the State 3tawd&w3m

IMMORTALITY.

COMPETITORS for fame have struggled and played their parts upon the stage of human life in the one grand object in view, and to that object the success of their desires, have they pushed upon the wings of ambition. True immortality, however, is attainable only by proper means, humility and benevolence are its path. The modest and unassuming aspirant commands the smiles of men, but like the venerable Parr, proceeds secondly on, happy in the conviction that his benevolent labours will be one day appreciated, and sentiments in leaving behind a legacy which shall be a blessing to lens of thousands

Patent Water Wheel.

THE undersigned Agents for the manufacture and sale of VALENTINE'S PATENT WATER WHEELS are prepared with *patterns* for casting all the different sizes and forms of wheels required for the various conditions in which they are used

The superiority of these Wheels may now be considered as fully established the evidence of which may be seen in the fact that hundreds of them have been put into successful operation in this State within two years past and also in the fact that a diploma was awarded for them by the managers of the Mechanics Fair in Boston last year and further that many careful experiments were made by scientific Engineers at Lowell last season the results of which as stated in a communication by one of them prove conclusively that the Valentine Wheel is at least 30 per cent stronger than any of the Rubber Reacting Wheels now in general use

The undersigned are prepared to furnish the above Wheels together with all other mill work and machinery used in this section of the country upon the most reasonable terms

FOR GOVERNOR,

FREEMAN H. MORSE.

HANCOCK COUNTY CONVENTION.

THE Whigs of the County of Hancock are requested to meet by delegates in Convention at the Town House in Bluehill, on Tuesday the 19th instant at 11 A M for the purpose of selecting candidates to be supported by them at the coming election, for County Attorney, Clerk of the Courts County Treasurer and County Commissioner — The basis of representation in said Convention to be the same as is contained in the call for the Whig State Convention for the present year

Per order of the County Committee.

aug 11

HANCOCK WESTERN SENTORIAL DISTRICT

WILL meet by delegates on FRIDAY the 22d Aug inst at Bluehill at one o clock, P M, to nominate a candidate for Senator for that district Each Town and Plantation will be entitled to the same representation as in the County Convention Per order of Committee

aug 11

COUNTY CONVENTION.

THE Whigs of the County of Penobscot are hereby notified and requested to select delegates to meet in Convention at the City Hall in Bangor on FRIDAY Aug 22 at 10 o clock A M to nominate three candidates for the Senate of the State a candidate for County Commissioner candidates for the offices of County Attorney and County Treasurer to be supported at the annual State election and to transact such other business as the interests of the County may require

Towns and Plantations having more than 2000 and less than 5000 are entitled to 3 delegates those having more than 1000 and less than 2000 to 2 delegates those having more than 500 and less than 1000 to 1 delegate those having 200 and less to 2 delegates Towns having more than 5000 inhabitants are entitled to a representation in proportion It is hoped that every Town will be fully represented at the Convention

Per order of the County Committee

aug 2

Visit of the Roxbury Artillery Company.

Our city was entertained yesterday by the animating strains of martial music and a brilliant display the first that has made its appearance here on a long time The Roxbury Artillery, a lofty and beautifully equipped company and under a high state of military discipline accompanied by the Boston Brass Band arrived here in the afternoon in Charter Oak They had been announced by our military friends and all seemed prepared with new life The mesmeric influence of the State Magnetizers of the militia seemed to have been thrown off and all brought back again to the natural feelings — The City Greys under the command of Capt John Morrill were out as gay and bright as ever, with the Bangor Band and received the Artillery with military honors as their guests for the day and escorted them to a fine camping ground on Thomas s Hill The companies then marched through several of our streets and displayed many beautiful military movements in a style which added forth the admiration of many

In the evening the guests were escorted to the Hall of the Greys which was elegantly decorated where a sumptuous entertainment was provided in the form of an excellent supper and to which ample justice was done In addition to the Roxbury Artillery the Greys had also as guests, the Mayor, Gen Stevens, Col Mills Capt Moulton, officers of the Rifle Corps J A Peters, Esq and others At the conclusion of the feast Capt Morrill introduced to the company several gentlemen who occupied the time with pleasant speeches and patriotic and social sentiments The evening passed off in a very pleasant manner all seeming to enjoy the wit and social joys of the occasion

The supper was provided by the Messrs F J Fuller and did them great credit as successful caterers for such occasions

The Artillery will to day, we understand be the guests of the Rifle Corps, who have made arrangements for a splendid pick nick on Burleigh s Hill this afternoon, where will be present a large company of the beauty of our city and where ample entertainments will be provided for all The weather to day is fine and a brilliant prospect of a joyous occasion seems to span the future

Grand Jurors and Rumselling.

A correspondent of the Portland Washington Journal states that at a recent term of the Court in Cumberland county, the Grand Jury voted unanimously to summon witnesses and examine as to certain alledged offences against the license law on a statement of the selectmen of Windham, and that the County Attorney refused to summon the witnesses, or to permit the Jury to do so

We know nothing of the truth of these charges nor of the merits of the particular cases referred to but we cannot but feel somewhat astonished after all that has been said relative to the duties of Grand Jurors that any man in the State should be in doubt in the matter — The Grand Jury is the most independent body known to our laws The Attorney in attendance is merely their agent—their law officer—their clerk, we may say to do their will and put their decisions in a proper form to go before the court, while with their manner of arriving at conclusions he has not any to do It is no part of an Attorney in attendance upon a Grand Jury to hedge up the way to any investigation they may choose to undertake, but he is rather to help them and to remove any and every obstruction and hindrance to the fullest inquiry An Attorney who undertakes to dictate to a Grand Jury assumes powers not warranted by our laws and which will not be sustained by our courts He deserves and should receive an indignant rebuke It is time that Grand Jurors understood their rights and their duties They should study the extent and import of their oath of office which is as follows —

"You as Grand Jurors of this inquest for the body of this county of ——, do solemnly swear, that you will diligently inquire, and true presentment make, of all such matters and things, as shall be given you in charge The State s counsel, your fellows' and your own, you shall keep secret, you shall present no man for envy, hatred or malice, neither shall you leave any man unrepresented, for love, fear, favor, or hope of reward, but you shall present things truly, as they come to your knowledge, according to the best of your understanding — So help you God.

For the purpose of this inquiry the whole treasury of the county, the power of the courts, and the force of the military arm of the State are pledged. A strong body and intended by law to be a strong body and if they understand their rights and duties no law officer will under take to brow beat or control them They should exercise their great powers with the utmost caution and prudence, but when they find an Attorney disposed to usurp their powers they should remind him of his duty and if he persists, seek the advice and direction of the court — Let this course be pursued in a few instances and such complaints as we have alluded to in the commencement of this article will be unknown

☞ We are requested to state that the mother of Fairfield, the poet, is now in this city, with two children of his, now orphans, for the purpose of obtaining subscriptions for a meritorious work We trust our citizens will cheerfully lend their aid in the holy enterprise of providing for the offspring of Mr Fairfield, in bestowing of the means for their education, and at the same time coming in possession of a work of interest We shall allude to this subject again, as want of time and space presses hard now

☞ The steam tow boat will be launched from Dunning a yard to morrow morning at half past seven o clock Those who go upon the excursion in the new steam ship Bangor will have an opportunity to witness the spectacle

☞ The excursion to Castine, Belfast and other towns on the river and Bay in the new steam ship Bangor promises to be a brilliant affair The weather promises favorable and everything will go off in good style We hope everybody will go

☞ After a long examination before a magistrate at springfield, Asel Sweetzer, a respectable farmer of that town, has been bound over for trial at the next Court of Common Pleas, in the sum of $400, on a complaint for selling the body of a diseased cow for food

☞ It is said that a spoonful of horse radish put into a pan of milk will preserve it sweet for several days either in the open air or in a cellar while other milk will sour

☞ Why is Mr Powers, the sculptor, likely to become a confirmed sot? Because he spends many days on a *bust*

To the Editor of the Whig and Courier

PORTLAND, Aug 9 1845

The present week has been one of great interest and excitement in this city The Whig Convention and the Odd Fellows gathering or celebration, have brought great numbers of strangers into town and the notoriety and importance which Portland has acquired abroad as the proposed terminus of the Rail Road connection between the Atlantic and St Lawrence, has attracted a greater number of travelers into Maine than have visited it in any former year The public houses in the city have been full and Cape Cottage, Prout s Neck, and all the favorite resorts of the season crowded beyond former precedent

But the event of greatest interest, was the arrival, on Tuesday of the Railroad delegation from Montreal This delegation consisted of the Hon Geo MOFFATT, a member of Parliament, and President of the Board of Trade of Montreal, (and partner of the great London house of Gillespie, Moffatt & Co) who is also Chairman of the St Lawrence and Atlantic Railroad Committee of Directors, Hon AUGUSTUS N MORIN a distinguished lawyer and leader of the French party in Canada, who was returned for two districts to the present Parliament) and the opposition candidate for speaker and THOS CRIGAN, Esq a distinguished merchant, and Vice President of the Board of Trade

These gentlemen were received in Portland with all the respect and attention due to their distinguished rank and the interesting mission on which they were engaged None could have been received or treated with a more cordial welcome Every one felt happy that an opportunity had occurred, by which, in some humble degree, we could repay the generous courtesy and attention with which our citizens, visiting Montreal on the same business, had there been treated It is due to the gentlemen from Montreal, that, in addition to the great personal regard for themselves, to say, they left upon the minds of the whole community here, the most favorable impression as to the people they represented and contributed in the most eminent degree to the advancement of the great project, which is soon to unite in most intimate, social and business relations, two great communities heretofore comparatively unknown to each other

A full interchange of opinion has taken place between the Committee of the Canadian portion of the Road, and the corporators and other friends of the enterprize in Maine The advantages of our position, the capacity of our State for business, the unequalled facilities afforded them by the superiority of Portland harbor over any other, and the splendid opportunities here offered them to facilitate intercourse between Canada, and the eastern provinces, and the nother country, seemed to fully realize and satisfy all expectations, raised in our favor in Canada

The final meeting between the Canadian committee and the Maine corporators took place at the Mayor s office on Friday morning From the circumstance of my connection with the project I was invited to be present Though strictly a private business meeting, many things occurred which it is perfectly proper to state — The Montreal gentlemen expressed surprise at the manner in which Boston writers had spoken of this great project in reference to Canada and to Maine Instead of the St Lawrence being nine miles in width and difficult to pass at the proposed terminus opposite the city of Montreal, as stated by Boston and their depot is to be upon the island opposite the new market, where the Maine channel is only a half mile in width, which can be passed in five minutes at all seasons of the year Again, too, it had been strongly asserted that Ogdensburg was at the foot of good lake navigation and the rapids below impassible. So far from this being true, boats heavily laden now pass the rapids and return through the Rideau canal—that the Lord Sydenham, now running between Montreal and Quebec, of over 500 tons burthen, was brought down without difficulty from Lake Ontario — That contracts could now be made to bring flour from Cleaveland, Ohio, to Montreal, at 40 cents per barrel, including tolls, and on the completion of their great ship canals, now far advanced, vessels of the largest class could be run each way, without any transhipment of freight, between Montreal and Chicago—some 1200 or 1500 miles—which would so reduce the price of transportation, that on the completion of the proposed Road in combination with these canals, flour from Cleaveland and beyond that point, could come to Portland for from 50 to 65 cents per barrel By intersecting the proposed road as high up as practicable, Bangor could be reached by a distance not more than 25 or 30 miles further from Montreal than from Portland, and flour from Ohio could be delivered at Bangor within or under 75 cents per barrel This proposed branch to Bangor is to be the favorite route from Montreal to St John city, Halifax and the lower Provinces That the idea was exceedingly in favor with the whole British public

They also stated that the river St Lawrence and lakes above Montreal were open and unobstructed with ice from *two to three* weeks after the closing of the Erie canal, and that on an average, from twenty five to thirty days of good navigation above Montreal continued after it was deemed unsafe to leave Montreal for the ocean, and that this twenty five or thirty days time was usually the period of the greatest arrival of produce from above In the spring of the year, a whole month of good navigation ordinarily existed above Montreal before any vessels could arrive from Europe or the ocean This fact will be readily appreciated by observing that the St Lawrence waters, when they reach Montreal, have come from a much more Southern latitude, and run from the ice in a direction nearly North east, some 1000 miles or more before reaching the open sea They stated that insurance from Cleaveland to Montreal was now ¾ or 1 per ct, instead of 3 or 4 per cent, as had been affirmed, and that by the competition of the canals it would soon be merely nominal

Insurance from Montreal to Europe had risen in consequence of frequent recent disasters and was now, never less than 2 per cent and advanced to as high as 8 or 10 per cent as the season progressed toward the close of navigation They further stated, that the project had met favor in Canada, mainly from the proximity of Portland to the St Lawrence It had then progressed, and reached its present auspicious position with a view to reach the sea at Portland and at Portland alone to propose any other terminus was in direct terms, an abandonment of the measure Such, however, was their position, that however strong might be their own personal convictions of our ultimate success, they could not strike a blow, till they had assurances that would satisfy disinterested minds of the ability on the part of Maine to meet their road at the boundary When Maine was prepared to give them this assurance the work would be instantly commenced

A full conference upon all matters was had, —arrangements for future interchange of opinion agreed upon, and a course of measures adopted for securing mutual cooperation in the construction of the road, and *one month* agreed upon as the time for definite decision upon the great measure itself The Montreal gentlemen took their leave of Portland in the afternoon of Friday

The deepest interest was felt in the result of this conference Our friends, many of them said their own minds had never before risen in to a due apprehension of the consequences of this measure *It must not fail* was the unanimous expression of all IT SHALL NOT FAIL was the energetic response of the whole body of the corporators It was proposed that every one should add 50 per cent to his subscription Some are ready to double theirs at once — Would that any citizen of Maine could have been present, and made to feel as all present felt that the decision might rest upon his own exertions P

The Shepherd's Dog.

The shepherd s dog, in his own department, is a perfect miracle of intelligence He understands the sign, the voice, the look of his master He collects the scattered sheep at the slightest signal, separates any one that is indicated, from the rest of the flock, drives them wherever he is told, and keeps them all the while under perfect control, less by his active exertions than by the modulations of his voice which expresses every tone from gentle instruction to angry menace These are his ordinary performances, visible every day in a thousand pastures But he can do greater wonders

It chanced one night that 700 lambs committed to the keeping of the Ettrick Shepherd, broke loose from his control, and scampered away over three divisions over hill and plain — Sirrah, my man, said Hogg mournfully to his colly, meaning it for an expression of grief, and not for a direction, they're awa Silently and without his master s knowledge, for it was too dark to see, the dog left his side, while the Shepherd passed the hours till morning in a weary and fruitless search after his wandering charge At the dawn of day he was about to return home with a heart full of despair, when he caught a sight of Sirrah guarding at the bottom of a deep ravine, not, as he first supposed, one division of the lambs, but the whole of the vast flock, without a solitary exception 'It was, says James Hogg, 'the most extraordinary circumstances that had ever occured in my pastoral life How he got all the divisions collected in the dark is beyond my comprehension — The charge was left entirely to himself, from midnight until the rising of the sun, and if all the shepherds in the forest had been there to have assisted him, they could not have effected it with greater propriety

On another occasion, the same famous shepherd saw a dog, when it was utterly dark, put upon the path of a ewe that had been lost by her owner near a neighbor s farm, and which was supposed to have mingled with her fellows that were feeding in the surrounding pastures — Chieftain said the master of the dog, pointing to the spot from which the sheep had gone off, fetch that I say, sir—bring that back—away '— And away he went, and back he brought, in half an hour, the identical sheep

A sheep stealer, who was at last discovered and hanged, used to carry on his trade by secretly signifying the particular sheep that he desired out of a large flock, as he viewed them under pretence of purchasing, to his dog, who, returning by himself a distance of several miles at night, drove the selected sheep, which was undoubtedly the fattest, to his fastidious owner — Both Scott and Hogg relate this picturesque story more circumstantially, from the annals of the Judiciary Court in Scotland

Sir Thomas Wilde knew an instance in which three oxen out of some score, had mingled with another herd 'Go fetch them,' was all the instruction the drover gave his dog, and he instantly brought along with him those very three

A cattle dealer accustomed to drive his beasts for nine miles to Alston in Cumberland, once for a wager, sent them with his dog The animal perfectly understood his commission He kept the straight road—ran, when he came to a strange drove, to the head of his own, to stop their progress—put the beasts that blocked the path upon one side, then went back again to the rear to be on his charge, and thus adroitly steering his way and keeping his herd together, he carried them safely to the destined yard, and signified their arrival by barking at the door of the dwelling

BY TODAY'S MAIL.

Arrival of the Great Britain—Seven Days Later from England

The Steamship Great Britain, from Liverpool arrived at New York, on Sunday noon last — She performed her passage in 15 days, had 45 passengers She brings very little political news of importance Commercial matters remained without change Earl Grey, father of the Reform bill, died on the 17th ult

There has been a terrible conflagration in Smyrna, but the details we have not time to give to-day

Elections.

KENTUCKY.

At the close of the second day Thomasson, Whig, in the Louisville district, was 484 ahead of the loco candidate

Garrett Davis re elected in the Lexington district over Tom Marshall Loco

INDIANA.

Caleb B Smith Whig is elected to Congress

☞ A correspondent of the Portland Argus states, that four persons, belonging to the fishing schooner William, of Rockport, Mass, perished in consequence of the schooner being run down, while lying on the Ridges South East of Baker s Island, on the night of the 27th ult

A man named Gerry, living in Charlestown Square, got up in his sleep, on Friday night last, and jumped from a third story window Fortunately he was but slightly injured

☞ By the census recently taken, it appears that Portland numbers a few short of 16 500 inhabitants

The Mechanic Arts.

We noticed a few days ago the great and growing advantages of the mechanic arts for young persons of good education, and respectable families, and public opinion seems to confirm all that we then said We shall not be surprised to see many young men avoiding the study of law or physic with becoming firmness and enterprise, article themselves for a number of years to some mechanical occupation, and thus place themselves on the sure road to independence There is no occupation honestly pursued, that is not in itself respectable Take a shoemaker, for example, a very humble calling and yet how great its importance—what could we do without shoes?—a tailor, always sneered at by the idle, what a valuable, useful business, we should be naked and barefooted without the tailor and shoemaker Look at the mason and house carpenter with their tools and strong garments, we should be tenants of the woods without them Examine the new Trinity Church, look at the exquisite delicacy of the work—the beauty of the execution—the neatness and skill displayed in the completion of the tall and finely proportioned spire It is a high honor to have assisted in erecting such a building Look at the Exchange, the Custom House the many magnificent private buildings throughout the city—who had the honor and praise of the erecting such edifices? The architect, mason, and carpenter Look at that merchant with his well filled stores, his town and country houses his Bank stock, and splendid equipage, to whom is he indebted for this fortune? To the ship builder Look at the curious operation of that locomotive, see it overcoming time and space, carrying thousands of passengers with the speed of the wind who made this curious machine? The wheelwright and blacksmith, the copper smith the modeller, the artist and so on with every trade and occupation they all constitute part of the necessaries of life are all useful, desirable, and indispensible When we all look to the obligations we are under to the mechanics we should all feel proud that there are pursuits and occupation in this free land which do honor to those who successfully and industriously pursue them How many stout, broad backed young gentlemen we have seen in lawyers and doctors offices, with their legs on the table, listlessly gazing on the revised statutes, who would wield an adze, flourish a hammer, or use a plane with as much success as any of their peers? How many smirking clerks there are, with smoothly combed hair, snipping tape or ribbon, who would make as mechanics of any occupation The difficulty we apprehend, in making mechanics of the sons of the respectable and wealthy families, lies more with mothers than with fathers They do not relish the rough dress, the hard hands the sun burnt countenance and the constan and somewhat fatiguing labor of their sons, there is no elegance in it and many would sink with shame to see their son with a plane saw, and adze in hand carrying also a tin kettle with his dinner, and going down town to work—a sight, more honorable than to see him drive into an eating cellar, play at billiards for money or herd in the third tier of the theatre with the characters which are found there This is all false pride, and should not be permitted to weigh a straw in the balance against the undoubted benefits which result from acquiring, and honestly pursuing some mechanic art Complaints have been made that mechanics generally are rough and uneducated, being poor children they learn nothing beyond what they acquire by daily labor This in the aggregate, we take to be an error but supposing that it is so, then there is a greater necessity for reform by making men of education mechanics, and thus at once, raise the standard of industry and labor Again, we are told to look at the Halls of Congress, and the State Legislature and we shall find the leading men belonging to the liberal professions Suppose this to be true, here we have another inducement for educating men for mechanical employments, for, as the productive industry of the country embraces the majority of the people, it is impossible that the influence which mechanics do and will exercise, should be founded and sustained by education, learning and talent Let us illustrate this position by stating a fact in biography which we find in the columns of a cotemporary, and know to be true Some thirty years ago, said he, a bare footed boy floated down the Susquehanna river on an humble raft, and arrived at Harrisburgh, Penn sa — He came from the North, and belonged to a large family with all his wordly goods tied in a little pocket handkerchief he sought, and obtained employment in a printer s office as an apprentice From an apprentice to a journeyman, from journeyman to reporter, then editor, the bare foot printer boy worked his way against obstacles of which the struggling poor only know The perseverance of the young follower in Franklin s footsteps began to realize the fruits of his patient toil and labor and privation The aspirant became Printer to the State, and by frugal management was soon enabled to accomplish the object dearest to his heart the establishment of his mother in a home above want—in the possession of every comfort she could desire His brothers next where his care, and like Napoleon, he had a strong arm with which to aid them—an indomitab espirit of perseverence that nothing could long successfully obstruct In a few years, they too, with his sisters, were independent of the world—the once bare-foot printer's boy was in the possession of affluence, surrounded by a young and affectionate family

He did not stop here He was a friend of the friendless, the patron of merit, the encourager of industry He rose in honor in office, until the poor barefoot boy who entered a printing office in Harrisburgh, hungry and weary, who laid down his little bundle upon a pile of wet paper, and asked to become a printer s apprentice was elected a Senator in Congress!— That man is Simon Cameron of Pennsylvania "Honor and shame from no condition rise '

Push ahead —don't wait for the tide or for death—dive at something, keep diving and you will succeed Who ever knew a drone to be good for anything'

The Arm Chair.

BY MRS S J HALE

There's pleasure in the humble home,
If childhood's smiles are there,
And comfort in the low best room,
Where stands an old arm chair
We know that Hope with heaven bright flame,
Hath warm'd the mother's breast,
We know the farmer s toil worn frame
Hath found a place of rest,
Bright visions of the household band,
Of love, and faith, and prayer
Heart joined with heart and hand with hand,
Surround the old Arm Chair

But childhood's happy grace can give
A charm to home most fair,
And wealth if wise, will never live
Without his good Arm Chair.—
It is a throne of holy power
If hearts of love surround,
A refuge in the world s cold hour
Where soothing greetings are found;
What nerves the care bow'd man with strength,
Life s battle field to dare?
That he and his may rest at length
Within a good Arm Chair

The monarch on his golden throne
Of hundred kings the heir
Can he as man compare with one
Who wins his good Arm Chair?
With willing hand and open mind,
Looks up, clear eyed to heaven
Strong pure and free as mountain wind
And kind as dew of even
Ay such the man that God hath blessed,
Whom angels guard with care
He it rest, and see his loved ones rest
Within his own Arm Chair

DIED,

In this city Aug 12 Benjamin B Taylor Printer eldest son of Jonathan C Taylor aged 23 years Salem papers please copy

Funeral on Thursday morning at eight o clock at the residence of his father Relative and friends of deceased are invited to attend
